Management Manual (SAMM)**
- **DLM 4000-25, Volume 2, Chapter 17,
Supply Discrepancy Reporting**
 - Replaced DLAI 4140.55 in June 2012

What Is An SDR?

(Unclassified)

- **SDR is a tool used to**
 - Report shipping (or packaging) discrepancies attributed to the responsibility of the shipper, (including Government sources, contractors/manufacturers or vendors)
 - Provide appropriate responses and resolution
- **Shipping discrepancies include:**
 - Discrepant condition of item, including expired shelf-life
 - Overage/shortage/total non-receipt
 - Discrepant unique item identification
 - Improper documentation
 - Misdirected shipments
- **Packaging discrepancies include:**
 - Improper packing
 - Improper preservation
 - Improper marking
 - Improper unitization

Dollar Limit Guidelines

(Unclassified)

- **SDR value must be \$200 or greater**
 - If SDR value is less than \$200, but adding the “below-the-line” charges for transportation and PC&H increases the value to \$200 or more, the SDR is a candidate for possible reimbursement
- **If SDR value less than \$200, country may submit an “Info Copy” SDR**
 - Informs action activity of an issue w/shipment
 - No financial restitution
 - **Exception . . . For DLA shipments, see following chart**

Defense Logistics Agency Policy Change

(Unclassified)

- **DLA policy. . . Since April 2008**
 - **If FMS shipment generates a discrepancy for ‘wrong item’ or ‘misdirected materiel’**
 - **SDR must be submitted so that materiel return instructions can be given to return materiel to CONUS DLA depot regardless of billed value**
 - **No \$200 minimum for materiel return on these type SDRs**
 - **Credit will not be provided (or customer account may be debited) if customer fails to return materiel as specified in the SDR response**
- **Per LOA, SDR credit is not authorized if the SDR value is less than \$200; however . . .**
 - **If customer uses action code 2A rather than 1H (info only), DLA will provide credit for any ‘wrong item’ and ‘misdirected materiel’ SDRs when materiel return is**

SDR Submission Timeframes

Original SDRs

(Unclassified)

- **Original SDRs:**
 - **Must Be Submitted** no later than 1 year after shipment (except billing errors and total non-receipt)
 - For billing errors and total non-receipt, no later than 1 year after shipment or receipt of initial DD Form 645 FMS Delivery Listing (Quarterly Bill), whichever is later
- **Earlier notification is better!** For PROS SDRs, warranty may be denied if SDR materiel is not received by VENDOR within 1 yr

SDR Submission Timeframes

Resubmit or Contested SDR

(Unclassified)

- **Resubmit and Contested SDRs:**
 - **Must be received by ILCO. . .**
 - If no materiel return on previous SDR denial □ **w/in 45 days** of SDR 'denial' reply date
 - If materiel returned to customer on previous SDR denial □ **w/in 90 days** from SDR 'denial' reply date
 - **Additional Info:**
 - **All SDRs must include supporting documentation to substantiate customer's claim**
 - SDR Reply Date shows on "Notification of SDR Completion" email, Customer Query, & back of 65264-Block 246

SDR Submissions Timeframes

Latent Defects

(Unclassified)

- **Latent Defects should be reported as soon as possible after discovery**

- **Defined as . . .**

“A flaw or other imperfection in an article discovered after delivery to the customer. Such defects are inherent weaknesses which normally are not detected by examination or routine test, but which are present at the time of manufacture”

“Latent defects apply only to the operability of the item.”

Supporting Documentation Latent Defects

(Unclassified)

- **For a problem to qualify as a “Latent Defect”, the customer must:**
 - Provide evidence that a receipt inspection was performed and the defect could not have been determined at that time
 - Show the defect is present for reasons other than deterioration or damage incurred during storage or handling

- **ALL SDRs (except non-receipt/billing) must have**
 - Shipping documents and pictures that substantiate customer's claim
 - For **NON-Receipt SDRs** must have freight forwarder statement
 - For **Billing SDRs** must have copy of billing statement
- **Packaging SDRs**
 - Carrier's bill of lading annotated w/damage
- **Shelf Life SDRs**
 - Details such as shelf life code, date cured, date packed, or date manufactured, serial #, mfg name, warrant
 - Lot/batch number, serial number, manufacture name, & warranty expiration date if available
- **Quality SDRs**
 - Category type, manufacturer name/CAGE, next higher assembly, end item, weapon system, serial number, operation time at failure, quantity in stock, and dates for: discovered, packed, manufactured, assembled, rebuilt, cured, warranty expiration
- **Missing Component or Wrong Item SDRs**
 - Provide NSN, CAGE/part number, or nomenclature. Enter UNKNOWN in Part Number field and 00000 in CAGE in SDR Wizard if data not available
- **Condition SDRs**

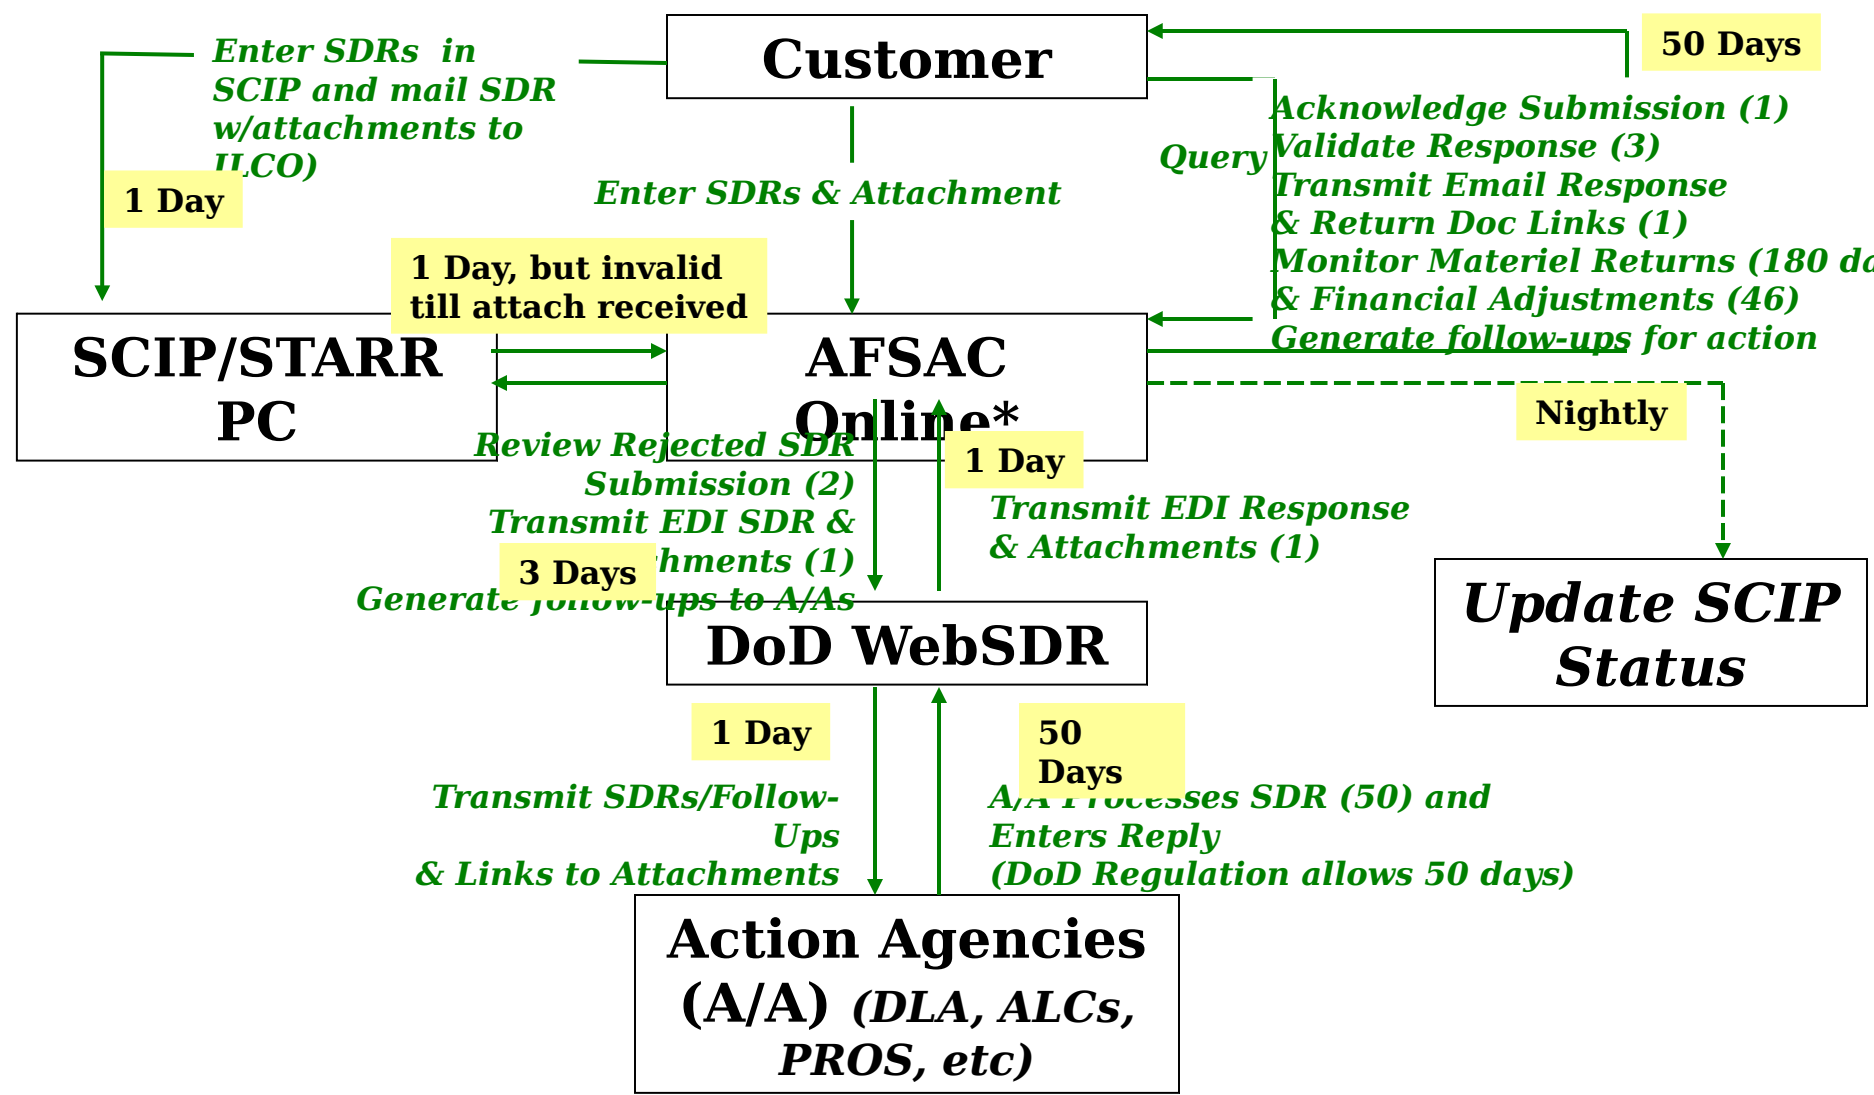

SDR Automation Scope

- **Automated 8 major SDR processes . . .**
 - **Submit SDRs***
 - **Validate/Process SDR Submissions/Replies**
 - **Manual Review/Actions—Exception Management**
 - **Electronic Data Interface (EDI) Communications with DAASC**
 - **Online Reply Processing**
 - **Customer Notifications via Email***
 - **On-line Queries/Reports***
 - **Automated Follow-Up Processing***
 - **General Maintenance Tools for ILCO**
- **Implemented 30 November 2005**

We currently offer a range of applications to our customers.

The Application Suite is a result of a long and ongoing process of development and refinement. It is a comprehensive and integrated system that provides a wide range of services to our customers.

We also provide a number of Logistics and Financial Applications as well as Worldwide Warehouse Applications (WWRS), Technical Order Index, Parts and Repair Ordering System (PROS) II Monthly Metrics, Letter of Request (LOR) Submission/ Validation and AFSAC Online Metrics.

We are constantly striving to develop new tools for our customers. Look for account automation features such as automated password resets and account expiration notifications in the near future.

AFSAC Online is a public web site available worldwide. AFSAC Online utilizes PKI enabled SSL (Secure Socket Layer) traffic on port 443. SSL is the industry standard and is among the best software available today for secure online commerce transactions. The servers that encompass AFSAC Online follows stringent procedures employed at the Wright Patterson Air Force Base level as to virus protection and software support issues. These guidelines are followed so that AFSAC's servers can operate in the public/private infrastructure of the Base. These guidelines, which all server tenants adhere to, are reviewed on an ongoing basis as to provide the customer with reliable, virus free access.

The applications that encompass AFSAC Online may be accessed from any 128 bit encryption capable web browser. The user must also possess a username and password to which the password must be changed every 90 days, & kept current. Users are only given three chances to access their account. If on the third attempt the password is invalid, the account is locked and can only be open by the help desk.

The image shows the 'Supply Discrepancy Report' (SDR) interface. At the top, there is a header with the Air Force logo on the left and the title 'Supply Discrepancy Report' in the center. Below the header, there is a navigation bar with tabs: 'Original', 'Info Copy', 'Resubmit', 'Contested', 'Corrected', 'Cancel', 'Follow Up', and 'ILCO Update'. The 'Follow Up' tab is highlighted with a red box, and an arrow points from a yellow callout box to it. Below the navigation bar, there are buttons for 'Prev', 'Next', and 'Help'. The 'Next' button is disabled. Below the buttons, there is a text input field for '*Document Number' and a label 'Enter the FollowUp Document Number or SDR Number'. Below this, there is a label 'And/Or' and a text input field for 'Total Report Number (SDR Number)'. Below this, there are three text input fields for '*SIO', '*Serial Number', and '*Country Code'. Below these, there are two text input fields for '*Case' and '*Line'. Below these, there is a dropdown menu.

An SDR reply is now available for your review/file. The following action activity response codes were input to close this SDR.

105 - Forward material received to address shown. Must use traceable and most economical means available.

101 - Credit authorized

For your convenience, the SDR reply remarks are shown at the end of this email notification.

This SDR will appear on the next Monthly SDR Status Report in the "Completed" portion of the report if no further action is required. If material must be returned to USG custody or a financial adjustment is required, the SDR will remain on the "Open" portion of the Monthly SDR Status Report until all actions are completed. You may monitor progress on all of your SDRs via the Monthly SDR Status Report, which is also accessible via AFSAC Online ([HTTPS://AFSAC.WPAFB.AF.MIL](https://AFSAC.WPAFB.AF.MIL)).

Basic guidelines for processing your replies are as follows:

- 1) If the reply requests your activity provide additional information and/or documentation needed to complete the investigation and/or resolution of the report (e.g., interim adjustment reply code = EI), go to the "Corrected" tab in the SDR Submission Wizard to submit the additional information within 45 days. If additional information is not received within 45 days, SDR will be automatically converted to a denial and completed.
- 2) If the reply requests your activity provide materiel/exhibit return, you must return materiel/exhibit within 180 days and notify AFSAC/IARGB Section (SDR Section) of return via the customer service email below. If materiel return notification is not received within 180 days, SDR will be automatically converted to a denial and completed.
- 3) If the reply is a denial (e.g., adjustment reply code = CD) and you disagree with the decision, you must resubmit or contest the SDR within 45 days. This can be accomplished by going to the "Resubmit" or "Contested" tab in the SDR Submission Wizard. Only one resubmitted or contested SDR is authorized via the automated tool.

Additional information (corrected), resubmitted or contested SDRs must reach the ILCO by DD-MON-YY. For faster processing time, you may utilize the SDR Submission Wizard accessible via AFSAC Online ([HTTPS://AFSAC.WPAFB.AF.MIL](https://AFSAC.WPAFB.AF.MIL)). If billing adjustments were approved, please allow two billing cycles for expected financial adjustments to appear on your quarterly DFAS billing statement.

If you have any questions contact Customer Service using the following email address: AIR.FORCE.FMS.SDR.AUTOMATION@WPAFB.AF.MIL

Subject: Follow Up (#1 or #2) Awaiting Materiel Return

The following discrepant materiel was approved for return to United States Government (USG) custody as a result of processing a Supply Discrepancy Report (SDR).

SDR Report Number: A0001-CC-CAS/001

SDR Document Number/Document Suffix: DCCXXXYDDD1234

Country Notified: DD-MON-YYYY

Materiel Return Suspense Date: DD-MON-YYYY

You are authorized 180 days to return discrepant materiel to USG custody. For exhibit returns, timely materiel returns are critical as contractor warranty timeframes take precedence over SDR timeframes. To date, 60 /120 days have elapsed without evidence being provided to the International Logistics Control Office (ILCO) that materiel has been returned to USG custody. Only 120/60 days remain for you to return materiel to prevent loss of credit or billing for materiel, whichever is appropriate.

Documentation must be received by the ILCO within 60 /120 days of this notice or you forfeit the opportunity to return the materiel and obtain any corrective actions that would have resulted. Your prompt attention to this matter is requested. Contact Customer Service at <mailto:air.force.fms.sdr.automation@wpafb.af.mil> if you have questions.
